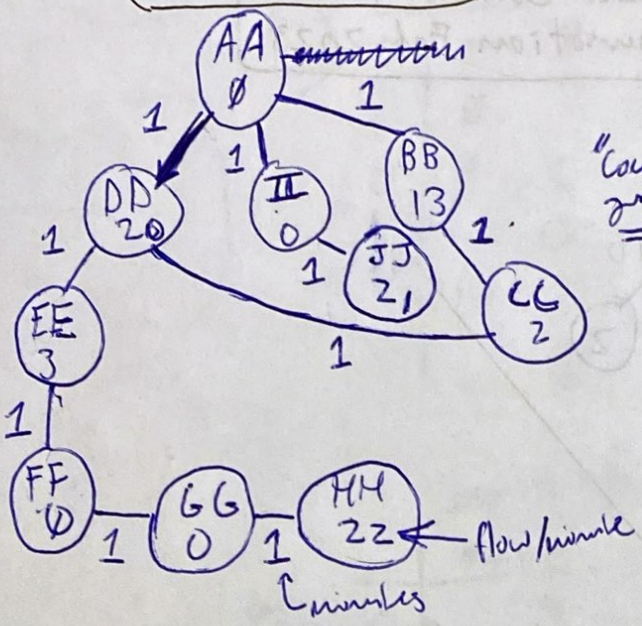
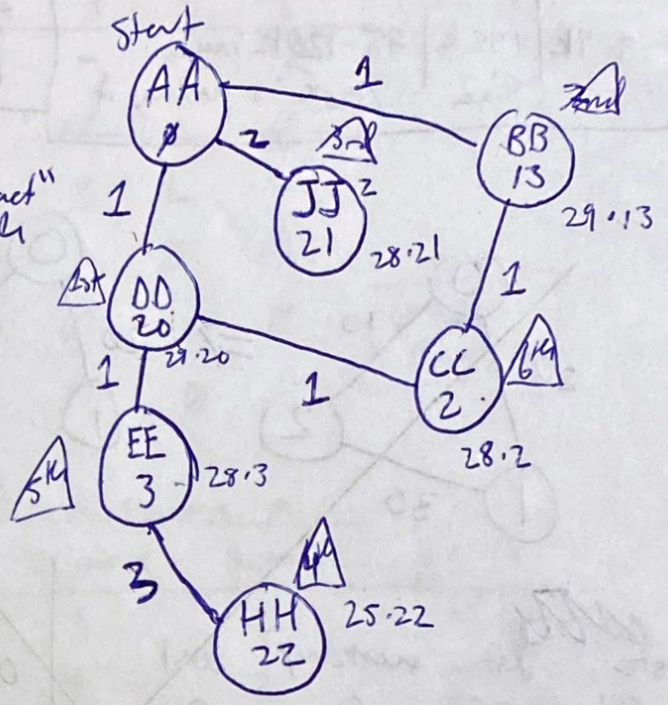
Day 16/25 (Advent of code)



How to incorporate 30 minutes into graph?

"Contract" graph ⇒



⇓

Can we just be greedy?

↳ If so, just try this for part 1

↳ part 2 probably makes greedy approach fail

⇔ No! Greedy doesn't work. what about top N candidates?

13.9k | 105k | 95-120k range
91.2 | 120K is pushing it
